

**PRODUCT DATA SHEET**

Characteristics	Description
<b>General</b>	
Product Name	CPX 10
Product Type	Thermoplastic Road Marking Primer
Colour	Clear Liquid
Application	Recommended spray application
<b>Physical Properties</b>	
Viscosity :	22 Sec (Ford Cup No. 4)
Drying time :	30 Min. May vary based on surface and ambient temperature
<b>Packing</b>	
Plastic Can / Metallic Bucket of 50 Ltr / 20 Ltr packaging	
<b>Storage</b>	
Shelf Life is approx. 12 Months from Manufacturing subject to material being stored in moisture free, dry conditions.	
<b>Areas of Application</b>	
Specially formulated primer for Concrete Surfaces and Old Asphalt acting as a Rigid Pavement Surface, Used for Coating before Thermoplastic Application.	
<b>Application Safeguards</b>	
Ensure that the area is clean, dry and free from dust, oil(diesel) and other contaminants. This is critical for optimum application. Remove any loose particles and dust by wire bush or any suitable mechanical tools	
<b>Consumption</b>	
3.5-4.5 sq mt/Ltr, depending on surface
